

Shree Krishna Industries

Innovative Flow Control Solution

Infra Valves

OVERVIEW :

Shree Krishna Industries - 'INFRA' valve is a dynamic & leading valve manufacturer of quality products delivering innovative solutions to customers in engineering industries.

Infra valve was incorporated in 2013 with intention to offer new generation industrial valves in fluid control system. Infra is promoted by professionals experienced from valve industry and now consists of a complete team with core competency. Infra has its own in-house strength to offer complete facilities for valve designing, engineering, machining, assembly, testing and quality assurance and delivering prompt support to customers.
